

## Macular Degeneration Test

Hold grid 12 inches in front of your right eye while covering your left eye for this test.

Can you see the dot?

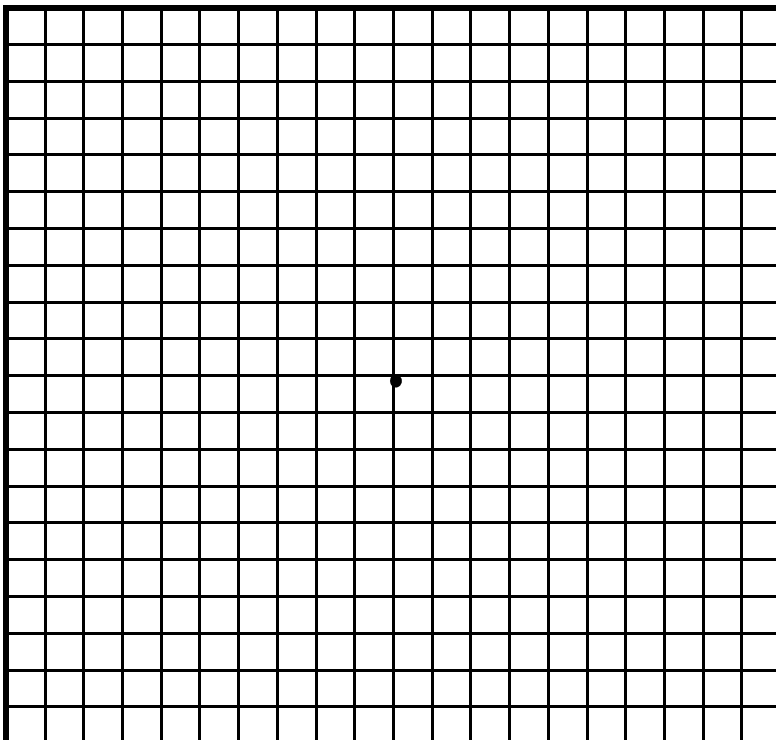

Look at the dot or the center of the grid. Can you see all 4 corners? Are any boxes missing?

Stare at the central dot. Are all the lines straight and continuous? Are any of the lines distorted or broken?

Outline any distorted or missing areas with a pencil.

Repeat this process using the other eye. Call our office if you have any changes in your vision. 509-525-2100
